

OSIRIS RAIN STUDIOS WORKSHOPS IN CLASSICAL PAINTING

WORKSHOP #2

Painting the Still Life in Oils, with Osiris Rain

Dates: August 14 – 16, 2008

Instructor: Osiris Rain

Workshop Fee: USD 200.00

Location: Center of the Earth Studios, 1200 N. Brevard St. Charlotte, NC 28205

This unique workshop offers an introduction to two disciplines that provide opportunities for the students to gain a number of valuable skills. After the opening lecture, students move quickly to the studio and prepare their canvas for the project. Work begins with drawing from a simple still-life set-up that introduces the principles of sight-size. After transferring the image, the student will be led through all stages of the painting process: dead-colouring, 1st-painting, 2nd-painting and final glazing and toning, all of which will be explained through demonstrations, and group and individual critiques.

*Early reservations are recommended, as student numbers are purposely limited to 10 in order to allow for a high degree of individual attention.

*The cost of the materials are not included in the fee.

Materials are to be supplied by the student.

A "Materials List" will be provided upon registration.
